

HEALTHCARE

Specialized Healthcare Elevator Cab Solutions

Eklund's delivers complete custom elevator cab solutions designed for the rigorous demands of healthcare facilities.

We bridge the gap between aesthetic excellence and clinical functionality, creating interiors that prioritize patient comfort, infection control, and long-term durability.

We manage the entire process—design, engineering, and installation—ensuring your cabs meet stringent health care standards without sacrificing your architectural vision.

All fabrication is done in-house at our Dallas/Fort Worth and Baltimore/Washington DC facilities. We are ISO 9001:2015, ISO 45001:2018, & ISO 14001:2015 certified for the highest possible of standards.

5 Reasons Healthcare Leaders Choose Eklund's

Clinical-grade durability: In-house fabrication of impact-resistant interiors designed to withstand 24/7 gurney and crash-cart traffic.

Specialized material expertise: Expert application of antimicrobial solid surfaces and non-porous composites to exceed infection control protocols.

Patient comfort: Diffuse LED perimeter and cove lighting systems.

Compliance & safety: ISO-certified manufacturing (9001, 45001, 14001) for total peace of mind.

Turnkey nationwide delivery: Direct collaboration with major elevator OEMs and coast-to-coast installation coverage from our Dallas and Baltimore hubs.
