

PROJECT MANAGEMENT

Enjoy Faster Turnaround Times, Simplified Coordination and a Seamless Experience from Start to Finish

5 Reasons Our Project Management Model Drives Success

Single point of contact: No hand-offs and no repeating yourself. One dedicated expert manages your project from the initial handshake to the final sign-off.

Strong internal processes: Your PM is backed by an in-house team of design engineers, ISO-certified manufacturers, and a responsive customer success team.

Timeline & budget integrity: We orchestrate every detail of the design and manufacturing process to ensure strict adherence to your project's critical path.

Total accountability: We own the entire lifecycle. Because we design, manufacture, and install, "the buck stops with us"—eliminating excuses and third-party delays.

ISO-Certified Processes: Our project management is fuelled by ISO 9001:2015 standards, ensuring a streamlined, repeatable, and transparent experience for every client.

When you partner with Eklund's you are assigned your own dedicated project manager who serves as your single point of accountability. Your project manager will orchestrate every detail — design approvals, material selection, timeline integrity, and budget harmony — so you enjoy a seamless experience from concept to completion.

No hand-offs. No repeating yourself. Just the one point of contact.

DAILY PROGRESS REPORTING

Employee Name	Date	Location	Cost Code	Form Name	Questions
KIRKLAND, JOHN B	8/17/2023 5:43 PM	Wesley Regional Medical Center	BCE Installation	Daily report	What call numbers did you work on today?
KIRKLAND, JOHN B	8/17/2023 5:43 PM	Wesley Regional Medical Center	BCE Installation	Daily report	Are issues?
KIRKLAND, JOHN B	8/18/2023 5:43 PM	Wesley Regional Medical Center	BCE Installation	Daily report	Did you add photos?
KIRKLAND, JOHN B	8/18/2023 5:43 PM	Wesley Regional Medical Center	BCE Installation	Daily report	Estimated hours to completion? Please state hours that arrive.
