

RETAIL

Custom-Crafted and Streamline Elevator Interiors to Enhance the Retail Experience

Eklund's specializes in "wow-factor" aesthetics that withstand the relentless demands of the shopping public. We combine bespoke visual appeal with robust and hard-wearing materials to ensure your retail space remains a premium destination that is both beautiful and easy to maintain.

We manage the entire process from design to installation and fabrication is done in-house at our Dallas/Fort Worth and Baltimore/Washington DC facilities. We are ISO 9001:2015, ISO 45001:2018, & ISO 14001:2015 certified for the highest possible of standards.

5 Reasons Retail Developers Choose Eklund's

Built-to-last: Specialized materials and finishes designed to hide wear, fingerprints, and scratches.

Visual impact: Industry leaders in bespoke observation cabs and glass enclosures that enhance the shopper experience and facility visibility.

Heavy-duty engineering: Built for 24/7 public use, designed to withstand heavy carts, freight, and constant cleaning cycles.

Turnkey branding: Custom etching and backlit panels that turn elevator cabs into high-end branding opportunities for your center.

On-time delivery: Dual manufacturing facilities in Dallas and Baltimore ensure rapid production and installation for large-scale retail projects.
